SUMMARY

I have spent most of my adult life working for my parent's business, where I learned invaluable lessons about hard work, dedication, and entrepreneurship. However, as I embarked on a path of self-discovery, I uncovered a hidden passion for technology and programming. Now, as a George Washington University Coding Bootcamp student, I approach each new challenge with an eagerness to learn and a proactive mindset geared towards overcoming obstacles.

PROJECTS

Two-Page Personal Blog

🔗 <https://prestonnguyen2001.github.io/Two-Page-Personal-Blog/>

Leveraging HTML, CSS, and JavaScript, I designed and implemented a two-page website that allows users to input and view blog posts.

Dynamic Resume Builder

🔗 <https://prestonnguyen2001.github.io/Dynamic-Resume-Builder/>

This interactive frontend project provides users with a convenient and efficient way to create and customize their resumes online.

Weather Dashboard

🔗 <https://prestonnguyen2001.github.io/Dynamic-Weather-Dashboard/>

Built a weather dashboard allows users to search for cities and view current weather conditions as well as a 5-day forecast. The dashboard runs in the browser and feature dynamically updated HTML and CSS.

ACHIEVEMENTS

Proudly contributed to the growth and success of my parents' business.

Being able to contribute to my parents' business means a lot to me on a personal level. It's not just about business; it's about carrying forward a family legacy and being part of something my parents have worked hard to build.

EDUCATION

Coding Bootcamp

George Washington University

📅 2024 - Present

Business Administration

Northern Virginia Community College

📅 2019 - 2021

EXPERIENCE

Front Desk Receptionist

Presley Laurent

📅 2014 - Present 📍 Gainseville, VA

Hair and Nail Salon

- In my role as a receptionist, I often encountered and resolved various issues and challenges. These experiences honed my problem-solving skills, which are crucial in programming when troubleshooting bugs or devising efficient solutions to complex problems.
